Work Experience

Enlitic

SAN FRANCISCO, CA

Forward Deployed Engineer

Mar '17 – present

Enlitic is building deep-learning tools to improve patient diagnosis and save lives. Manage external partners, build and aggregate data for models, and contribute to our radiology platform deployed in hospitals worldwide.

Microsoft

REDMOND, WA

Program Manager, Developer Platform and Ecosystem

Dec '16 – Mar '17

Design kernel and shell features for future devices in Microsoft's [Surface](#) hardware product line. Partner with enterprise clients to expand the Windows application platform and ecosystem.

Program Manager Intern

May '16 – Aug '16

Collaborated with developers and program managers to design future features for Windows. Contributed to [Project Centennial](#) to build the architecture necessary to bring classic Win32 applications to the Microsoft Store.

Onshape, Inc.

CAMBRIDGE, MA

Software Development Intern

May '15 – Aug '15

Onshape is an entirely cloud-based 3D CAD software company developing the next generation of collaborative mobile engineering design tools. Developed UI features and a testing suite for Angular.js applications.

Entrepreneurial Projects and Research

The Inventor's Guild, Inc.

TROY, NY

Chairman, former CEO

Nov '13 – present

The Inventors Guild is a think-tank and consulting firm which has won over three dozen awards nationally and internationally, contracted with 30 companies, and formed professional relationships with innovators including [Pebble Technology](#) and [Google\[x\]](#). While CEO, the Inventor's Guild expanded from 12 to 30 members. The team now spans students from 13 universities and completes over \$100k in contracts annually.

Penn HealthX Labs

PHILADELPHIA, PA

Entrepreneurship Adviser

Aug '16 – present

University of Pennsylvania's HealthX Labs incubator advises student teams as they create ventures in the healthcare and medical technology space. As an adviser, provide technical, business-development, and entrepreneurial guidance to member teams as they prepare for competitions and pursue funding.

Leadership

.406 Ventures

BOSTON, MA

Student Fellow

Jun '15 – present

.406 Ventures is a Boston-based venture capital firm that invests in and provides support for early-stage technology companies. Fellows investigate early-stage ventures and offer assistance to student entrepreneurs. Led the recruitment of the new class of fellows by conducting over 35 candidate interviews and maintaining active relationships with entrepreneurship centers from 20 universities across the U.S. and Canada.

University Innovation Fellows, National Science Foundation

STANFORD, CA

Student Fellow

Jun '15 – present

Leading construction of a Makerspace on campus for student entrepreneurs to develop their ideas and grow their ventures. The program brings students from over 140 colleges together to develop as entrepreneurs.

Boy Scouts of America

TROY, NY

Eagle Scout, Senior Patrol Leader, Junior Assistant Scoutmaster

Jul '05 – May '15

Led BSA Troop 364 consisting of 75 Scouts as the Senior Patrol Leader. For my Eagle Scout Project, led the 160 hour homeless shelter playground renovation and tire swing construction. Volunteered with BSA Troop 622.

Skills

Experience with market research, due diligence, business development, leading recruitment programs, rapid prototyping, computer-aided design, scripting, and back-end software development. Exposure to front-end software development, design for manufacture, and operations. Excellent communication skills.
